R-QP405 / R-QP405B
Powerful Line array column speaker

Product Description

This array sound column is the best fixed installation array sound column in terms of maximum sound pressure level, farthest projection distance, and excellent frequency response.There are two types of wall mounting designs, which can be installed tightly against the wall, or extended brackets can be used to adjust the angle up, down, left, and right. Suitable for installation in various building spaces.It can provide clear and transparent speech reproduction and precise projection angles.

Features

*Adopting a streamlined design with a unique curved appearance patent, the appearance is beautiful and practical, and the sound quality is beautiful and pleasant to listen to.
*The design adopts a dual frequency division, high and low frequency module structure. Vertically stacked with 4 5.5-inch bass units, with upper and lower directional splitters, providing greater low-frequency dynamics. The tweeter adopts 10 1-inch units paired with aluminum alloy bracket components to form a high-frequency beam control module, which has a more delicate and layered high-frequency performance. Equipped with asymmetric beam projection pointing technology and constant wave width technology, it has unique acoustic performance advantages.
*High performance array sound columns can provide excellent sound reinforcement for complex environments with high natural reverberation coefficient, echoes, and building obstacles in language and music listening spaces.

Specification

Model	R-QP405	R-QP405B
Speaker specification	Bass: 4x5.5 "ferrite, tweeter module: 10x1" neodymium magnet	4x5.5 "ferrite
Impedance	4 Ω	8Ω
Rated power	450W	350W
Peak power	1800W	1000W
Sensitivity	98dB	95dB
Sound pressure level (peak)	125dB	121dB
Frequency response	75Hz-20kHz	45Hz-400Hz
Speaker body	Plywood+ordinary paint	Plywood+ordinary paint
Mesh cover	Iron	Iron
Diffusion angle	Horizontal>90 °, vertical>45 °	/
Installation holes	8 M8+4 M4	8 M8+4 M4
Installation system	Wall mounted without angle or bracket type adjustable angle wall mounted installation	Wall mounted without angle or bracket type adjustable angle wall mounted installation
Color	Black/White	Black/White
Size (H×W×D)	712x176x239mm	712x176x239mm
Net weight	12kg	11kg
Gross weight	13.8kg	12.8kg
