# 8-Zone Timing Host MP3/Bluetooth/FM Tunier RTC-1008

## Descriptions

- 2U height, black alumina brushed panel, showcasing high-end temperament;
- True color 24 bit 4.3-inch IPS display screen, wide viewing angle high-definition resolution 800x480, capacitive full touch operation, simple, fast, convenient and intuitive operation, while supporting shuttle key and button operation;
- Supports 8 partition button controls, which can manually turn on/off 8 partition outputs;
- Support 3 power button controls, can manually turn on/off 3 power outputs;
- Supports switching between Simplified Chinese, Traditional Chinese, and English menus, and supportsUnicode encoding;
- Supports high-definition MIC recording, supports MP3 storage for recording file format, and automaticallygenerates vivid files;
- Powerful timing function, using temperature automatic compensation high-precision RTC clock chip, timingcan be accurate to seconds, precise implementation (timing+fixed point+fixed track);
- Data storage, using USB flash drive and TF card storage (for storing music and running files), sturdy and durable, with a maximum capacity of up to 128GB, supporting scheduled playback of USB flash drive and TF card programs;
- You can directly access the TF card content of the host through a computer, download music files and program files;
- This machine can browse song lists, and song names support long file name subtitle display;
- Supports computer programming and local manual programming, supports 8 sets of programs, each set of programs can program 256 timed points, and each timed task's music file supports file number selection, number range, and file name selection of songs;
- Supports programming with TF card or USB flash drive inserted into the computer, and supports programmingwith USB cable connected to the computer;
- Support the function of displaying timed points sorted by time;
- Fire emergency broadcast function, supporting local triggering and external fire collectors triggering alarmsthroughout the entire area;
- Internally integrated FM radio function, supporting preset, automatic search, manual search and other functions;
- One local microphone input, two AUX inputs, and four audio outputs;
- Support over the horizon remote control:>500 meters, optional A/B/C/D codes (remote control function is optional);
- This machine has 3 programmable power sockets and 8 programmable partitions;
- Supports music player volume, radio volume, microphone volume, AUX volume, Bluetooth volume, monitoringvolume, independently adjustable;

| Model NO. | RTC-1008 |
|---|---|
| Line input | 10k ohms (Ω) 330mV, unbalanced |
| Microphone input | 600ohms (Ω) 5~8mV, unbalanced |
| Line output | 10k ohms (Ω) 500mV (0 dB), unbalanced |
| Controlled power supply | 3-channel AC220V universal power socket |
| Monitoring speaker | Full range speaker, power: 5W/8 Ω |
| Signal to noise ratio | >90dB |
| Frequency response | 20Hz~18kHz |
| Power cord | (3 × 1.0mm2) × 1.5M (standard) |
| Power supply | AC220V ± 10% 50-60Hz |
| Power consumption | 20W |
| Equipment size | 89(H)×483(W)×350(D)mm |
| Net weight | 6.2Kg |
